

InstaFlex Tray Cables

TC-ER approved for conduit-free installation

InstaFlex™ Tray cables offer a ruggedized, oil resistant cable alternative to conduit installation in industrial machine, control, power transmission and wind turbine applications. Designed for maximum flexibility, InstaFlex tray cables allow easy routing during installation. InstaFlex Tray cables are available in both shielded and unshielded versions.

CONSTRUCTION

- Finely stranded bare copper conductors
- Premium PVC/Nylon insulation
- Aluminum mylar with braid shield
- Oil resistant PVC jacket

ADVANTAGES

- Flexible
- Oil resistant
- Voltage rating of 600V
- UL TC-ER, WTTC, MTW, AWM 2587
